**BES&T CEO APPOINTED TO THE U.S. EX-IM BANK'S ADVISORY COMMITTEE**

**MANCHESTER, NH** - November 21, 2012 - [Boyle Energy Services & Technology, Inc.](#), is pleased to announce that it's President/CEO, Michael Boyle, was recently appointed, among 15 others, to the EX-IM Bank's Advisory Committee for FY2013. The Committee advises EX-IM Bank on its policies and programs, in particular on the extent to which the Bank helps U.S. exporters to compete. Congress established the Advisory Committee thirty years ago. The Bank directors selected

members in a process that weighed the nominees' business experience and qualifications, and created balance in perspectives. The final slate represents a wide sampling of business sectors, including small business, manufacturing, labor, services, finance, and environmental concerns.

More nominations for the committee were received this year than ever before. This indicates strong bipartisan interest in achieving the National Export Initiative goal of doubling exports between 2010 and 2015. The Bank directors selected members in a process that weighed the nominees' business experience and qualifications, and created balance in perspectives. The final slate represents a wide sampling of business sectors, including small business, manufacturing, labor, services, finance, and environmental concerns.

For a complete list of members of the FY2013 Advisory Committee, and the sectors they represent, please visit: [EX-IM Bank Announces FY2013 Advisory Committee Members](#)

###

**ABOUT EX-IM BANK:**

EX-IM Bank is an independent federal agency that helps create and maintain U.S. jobs by filling gaps in private export financing at no cost to American taxpayers. In the past five years (from Fiscal Year 2008), EX-IM Bank has earned for U.S. taxpayers nearly \$1.6 billion above the cost of operations. The Bank provides a variety of financing mechanisms, including working capital guarantees, export-credit insurance and financing to help foreign buyers purchase U.S. goods and services.

*At **BES&T**, we excel at providing sustainable engineering, design, and commissioning solutions for large power generators, industrial and chemical manufacturing facilities, and refineries around the world using our world-class technology called **SigmaCommissioning™** that lowers our clients' costs by millions of dollars and assist large industrial facilities to transform from a construction environment to an operation readiness condition.*
